

<p>Supaporn Kulthinee, Ph.D.</p> <p>Instructor</p>	<p>Academic Qualification:</p>
	<p>2017-2019: <i>Postdoctoral Fellow</i> (supervised by Prof. L. Gabriel Navar, Past President of the American Physiological Society and Past Chair of the American Heart Association Hypertension Council), Department of Physiology and Hypertension and Renal Center of Excellence, Tulane University, New Orleans, Louisiana, USA.</p>
	<p>2016: <i>Ph.D.</i> (Medical Physiology), Khon Kaen University, Khon Kaen, Thailand.</p>
	<p>2010: <i>M.Sc.</i> (Medical Physiology), Khon Kaen University, Khon Kaen, Thailand.</p>
	<p>2004: <i>B.Sc.</i> (Cardio-Thoracic Technology), Naresuan University, Pitsanulok, Thailand.</p>
	<p>Academic Expertise:</p>
	<p>Cardio-Renal Physiology</p>
	<p>Experimental Hypertension</p>
	<p>Extracorporeal Circulation</p>
	<p>Current Research:</p>
	<p>The physiological relevance of P2X and AT1 receptor interactions in the regulation of preglomerular renal microcirculation in angiotensin II-induced hypertension</p>
	<p>Honors/Awards:</p>
	<p>2019 Henry Christian Awards for outstanding abstract, American Federal for Medical Research, USA</p>
	<p>2018 The Caroline tum Suden/Frances Hellebrandt Professional Opportunity Awards, American Physiological Society, USA.</p>
	<p>2017 The John F. Perkins Jr. Memorial Award for International Physiologists, American Physiological Society, USA.</p>
	<p>2012 The Distinguished Alumni Award, Faculty of Allied Health Science, Naresuan University, Thailand.</p>
